### Voyage of Zeppelin Across Atlantic Took 111 Hours, 48 Minutes

NAVAL AIR STATION, LAKE HURST, N. J., Oct. 16.—The largest airship ever built, the 3,700,000 cubic feet of its silver envelope filled with inflammable hydrogen, was berthed here today after completing the farthest commercial flight from Europe and three other dirigibles nudged

There was a definite feeling of tension in the air. Smoking was strictly prohibited, and in certain places no one was allowed except with rubber-soled shoes, lest so small a thing as a spark from a nailed heel cause terrific disaster.

The dirigible from across the sea was the mighty Graf Zeppelin, which floated from the Zeppelin works at Friedrichshafen last Thursday morning with a crew of forty men and a passenger list of twenty, and landed here at 5.38 o'clock yesterday afternoon after playing tag with the elements for 111 hours and 48 minutes.

Crowds had gathered for three days in hopes of witnessing the arrival. On Sunday, at least 100,000 persons and perhaps as many as 500,000, having flocked in from several states to witness the coming of the giant.

Yesterday, however, there were not nearly more than 5,000 on hand when a grey smudge appeared on the darkening north horizon and expanded to the proportions of a gigantic fish that swam the skies with stupendous majesty. The great dirigible, now in its

# DOMINION CAN-ENTER POWER GAME ROWELL

Supreme Court Decision May Not be Given for Months

OTTAWA, Oct. 15.—After argument for two weeks, hearing of the issue of federal and provincial jurisdiction over the power of the Dominion was continued today and judgment was expected to be given in a few days. The Dominion government is contending that it has a right to the power, while the provinces are contending that it is theirs. The decision will probably be given in the form of a judgment by the court.

There is no reason, the Dominion contended, why the provinces should be allowed to enter into a compact with the Dominion government. The provinces are contending that they have a right to the power, and that the Dominion government is not entitled to it.

Mr. Rowell went on to say that he knew of no right in the Dominion to enter into a compact with the provinces. He said that he knew of no right in the provinces to enter into a compact with the Dominion government.

( Special to the Bulletin )

**YEDD GREEN, Oct. 16**— Hockey preparations for the coming season were well advanced in the local zone, when the club held its annual meeting in the city hall chamber last night. Capt. W. Mr. Weston testified to the good standing of the club which had been in existence for twenty years, and that the club was in the bank, and had cleaned up a debt of over \$400 in one year. He also stated that the club was in financial matters to the last season's secretary and treasurer, Mr. Howard C. Brown, who was elected to the office, and paid Mr. Brown a high tribute to his efficiency, foresight and general ability. His presence in the local zone affair will be greatly missed this season.

The report on the standing of the club was read by the secretary, but since, the club was well away for equipment, a complete set of new uniforms had been ordered, and was being shipped along with a full goal-keeper's outfit, and dressing room equipment.

# GRAIN MARKETS FINANCE

## WHEAT UP ON 'PEG' MARKET

WINNIPEG, Oct. 16.—Higher prices at Liverpool forced the local wheat market higher today, and local quotations revealed gains of 1/2c to 1 1/2c over the previous close. Much of the strengthening was done by local traders, however, as there was no news from the market.

The market opened with a gain of 1/2c to 1 1/2c, but fell back when heavy selling started, only to regain the high price when selling had been well absorbed.

Reports from Liverpool indicated that farmers were finding sufficient time to grow grain to fill their requirements and were not keen buyers of wheat. The market was also affected by the crop year Canada has exported 12,000,000 bushels of grain.

Prices were about 1/2c to 1 1/2c higher on the cash grain market.

The morning grain market was active and prices held firm on all grain except fax which broke 1/2c at one period.
